

Treasure route

For method 11 · The chess treasure hunt – two routes per sheet

Each team gets one route. The team writes the move and the reason and ticks “done” before you show the solution. In Level 1 and 2 the move is an arrow in the workbook; the team only ticks “done”, and only the move counts. After the solution you show the letter for the exercise. The next team at the table gets the route (in Level 1 and 2 the workbook as well), ticks “checked”, writes the letter if the answer was right, and gives everything back. At the end you show all four letters; each team fills in the missing ones and arranges them into the word. That does not change the points.

Treasure route

Team: _____

Our treasure word: □ □ □ □

Exercise 1

Move: _____

Reason:

☐ done

☐ checked

Letter: □

Exercise 2

Move: _____

Reason:

☐ done

☐ checked

Letter: □

Exercise 3

Move: _____

Reason:

☐ done

☐ checked

Letter: □

Exercise 4

Move: _____

Reason:

☐ done

☐ checked

Letter: □
